## Wireless Rain Sensor Program

Rain sensors – also called rain shut-off devices – are designed to interrupt the cycle of an automatic irrigation system controller when a specific amount of rainfall has occurred. They are small devices connected to the irrigation system controller and mounted in an open area where they are exposed to rainfall. Homeowners will be given a FREE Wireless Rain Sensor to install.

### Program Qualifications:

- Active customer of a participating utility in Polk County (go to [SavePolkWater.org](http://SavePolkWater.org) or call your utility)
- Home currently has a programmable irrigation system

### Steps to Apply:

- Complete this form and submit it to your utility using the button below or information provided on the PRWC website.
- Utility will contact the homeowner and schedule a time to pick up the FREE wireless rain sensor. Select utilities may drop off or mail the unit.
